Welcome to

Growing in Grace,

a comprehensive children's music curriculum.

The heart of *Growing in Grace* is the music. The songs appearing in each unit have been carefully written to ensure they are developmentally appropriate for the child, both theologically and musically. With understandable texts, singable melodies, and interesting accompaniments, these songs will help each child develop their natural singing skills, increase in musical knowledge, and grow spiritually.

The theme, *God Loves the World*, is based on John 3:16 and invites children to explore how God expresses love to us and how we should respond. God's love embraces all people in all places, and we find fulfillment in loving all that God loves. God also takes pleasure in His creation and reveals His glory in the created order. We have a responsibility to love and care for others and for the world as God cares.

This curriculum package includes two discs with demonstration and accompaniment recordings, abundant teaching materials, and colorful visuals. Song Teaching Steps offer easy-to-follow instructions. Additional resources are available online at www.growing-in-grace.com.

New Curriculum Features:

- Activities have an increased emphasis on student-centered, hands-on learning and music-making. Frequently, an activity may be used over two or more weeks, building on previous learning experiences.
- A Poster Kit is available for purchase. It contains all *God Loves the World*—Spring curriculum visuals larger than 8.5"x11". Digital versions of all visuals, both PrintReady and Multi-page, are available in the curriculum. All 8.5"x11" curriculum components, including one-page visuals, songs, KIDPages, Teaching Steps, and Session Outlines, are printed by the user, as always.
- Curriculum posters (larger than 8.5"x11") are shown in Teaching Steps and Checklists as a single image, rather than the multi-page format.
- Preschool and Elementary Session Plans are now provided as easy-to-read Session Outlines.
- Student Pages are now called Student Scores.

Convenient Curriculum Features:

PrintReady

PrintReady folders contain digital versions of Poster Kit visuals, available to import into multimedia presentation software.

Demonstration Videos

Demonstration Videos are available online through hyperlinks embedded within PDF Teaching Steps. Simply click on the hyperlink within a PDF or type the URL in a browser. The videos equip leaders to teach curriculum features, such as choreography, movement activities, and sign language.
